Summary of HB 2:

Click here to view a copy of the [new version of HB 2](#) as approved by the House Health Committee. HB 2 will prohibit smoking in all indoor worksites and public places EXCEPT in the following locations:

- Private residences (except those used to provide child care or adult care services).
- Tobacco shops as long as the smoke does not migrate into other enclosed areas where smoking is prohibited (such as a mall). Tobacco shops that open after July 1, 2009 may only allow smoking if they are in a free-standing structure occupied solely by the tobacco shop.
- All premises, facilities, and vehicles owned, operated, or leased by any manufacturer or processor of tobacco products.
- Up to 20% of designated guest rooms in lodging facilities.

HB 2 also restores authority to local governments to regulate smoking so that local communities may do more to regulate secondhand smoke if they choose.

The bill would become effective January 2, 2010.
