

Resolution in Support of an Increase in NC's Cigarette Tax by \$1.00

November 2009

WHEREAS, the use of tobacco products is the leading cause of preventable death and disability in North Carolina¹; and

WHEREAS, Nearly 12,000 NC children will become regular daily smokers this year²; and

WHEREAS, the best way to prevent and reduce tobacco use by children is to substantially increase the cost of cigarettes³; and

WHEREAS, a cigarette tax increase of \$1.00 would result in a 17% decrease in youth smoking rates, prevent 89,500 NC children from becoming addicted adult smokers and saving 39,300 young people from premature smoking-related deaths⁴; and

WHEREAS, NC's cigarette tax is currently 45-cents, the 6th lowest in the nation; and

WHEREAS, the use of tobacco products costs the State \$2.46 billion in direct healthcare costs (\$769 million in Medicaid expenses alone), and \$3.3 billion in lost productivity annually⁵; and

WHEREAS, North Carolina expects to see a \$4 billion deficit (or more) for the FY2009-2010 budget; and

WHEREAS, these deficits risk cuts to important programs affecting the health and wellbeing of North Carolinians and more reductions may be threatened; and

WHEREAS, an increase in the cigarette tax of \$1.00 would generate an estimated \$329 million in new revenue in the first year⁶.

NOW THEREFORE BE IT RESOLVED that the cigarette tax in North Carolina be increased by at least \$1.00 a pack.
