

Resolution in Support of an Increase in NC's Cigarette Tax by \$1.00

May 2010

WHEREAS, the use of tobacco products is the leading cause of preventable death and disability in North Carolina¹; and

WHEREAS, Nearly 10,400 NC children will become regular daily smokers this year²; and

WHEREAS, the best way to prevent and reduce tobacco use by children is to substantially increase the cost of cigarettes³; and

WHEREAS, a cigarette tax increase of \$1.00 would result in a 16% decrease in youth smoking rates, prevent 84,600 NC children from becoming addicted adult smokers and saving 40,900 young people from premature smoking-related deaths⁴; and

WHEREAS, NC's cigarette tax is currently 45-cents, the 7th lowest in the nation; and

WHEREAS, the use of tobacco products costs the State \$2.46 billion in direct healthcare costs (\$769 million in Medicaid expenses alone), and \$3.3 billion in lost productivity annually⁴; and

WHEREAS, North Carolina expects to see another significant budget deficit for the FY2010-2011 budget; and

WHEREAS, these deficits risk cuts to important programs affecting the health and wellbeing of North Carolinians and more reductions may be threatened; and

WHEREAS, an increase in the cigarette tax of \$1.00 would generate an estimated \$366 million in new revenue in the first year⁴.

NOW THEREFORE BE IT RESOLVED that the cigarette tax in North Carolina be increased by at least \$1.00 a pack.
