

# Throw NC Communities a ROAP

- The Rural Operation Assistance Program (ROAP) is a state-funded public transportation program administered by the North Carolina Department of Transportation
- The funding is provided to counties to offer low cost transportation to the elderly, disabled people, and some members of the general public
- This program provides critical access to healthcare, education, and employment services in communities across the state
- Funding for this program was eliminated in in 2020

**Restore funding for this critical resource!**
